Reach into the distant past and discover the fascinating origins of the advanced technology that allows future Earth inhabitants to journey between parallel universes at their whim. This entry in H. Beam Piper's popular Paratime series homes in on the Martian colonists who visited Earth hundreds of thousands of years ago.

This collection of historical biographies presents the lives of ordinary people who accomplished extraordinary deeds during the time of the middle ages. Illustrated with stunning portraits, this inspiring compilation of stories describes with historical accuracy and age-appropriate content the quality character and unbending determination of eight figures from medieval times.

Clio Chase is hoping for a quiet season in Sicily with her family. There, she can forget all about the enigmatic Duke of Averton and the strange effect he has on her. That is until he unexpectedly arrives,

shattering her peace and warning her of trouble.... The unsettling attraction is still strong between them, despite the secrets they hide. But, as the unknown threat grows, they are thrown together in the most intimate of ways. Clio knows there is only so long she can resist her mysterious duke!

At the beginning of her breakdown the intervals between intelligent consciousness and insanity had been long. She was herself, or was able to keep herself fairly in hand, the greater part of the time, and chaos, when it came, lasted only for a few days or weeks. Recently this condition had been reversed. She had lost knowledge of time, but she felt that centuries must have passed since those last flying, blessed hours when she knew herself at least for what she was. She grasped now at her returning reason, with a desperate, shuddering little moan, which she quickly stifled.

American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi-official military organizations, as well as the millions of women who worked in civilian defense industries, ranging from aircraft maintenance to munitions manufacturing and much more. It also illuminates how the war changed the lives of women in more traditional home front roles. All women had to cope with rationing of basic household goods, and most women volunteered in war-related programs. Other entries discuss institutional change, as the war affected every aspect of life, including as schools, hospitals, and even religion. American Women during World War II provides a handy one-volume collection of information and images suitable for any public or professional library.

-All of North America in one volume.

Differences between the stomach of a cow, a rabbit, a gorilla, a starfish, a frog and a bird. Includes notes for teachers. Suggested level: primary.

The new edition of Brown's Boundary Control and Legal Principles has been updated to reflect ongoing changes in surveying technology and surveying law, notably by adding water boundary expert George Cole as a contributor to revamp information on Riparian and Littorial Boundaries. Additionally, a new appendix has been introduced containing a comprehensive list of surveying books that have been referenced in court cases and legal decisions as persuasive authority over the years. It is indispensable reading for students and practitioners studying for the Fundamentals of Land Surveying licensure exam.

Describes the life cycles of different kinds of animals, discussing how kangaroos, horses, chicks, snakes, and frogs are born, grow, and change.

Using simple text, explains what clouds are made of, how they form, and why they are an important part of the weather.
