A Walk on the Wild Side is a 1956 novel by Nelson Algren, also adapted into the 1962 film of the same name. Set in Depression era, it is "the tragi-comedy of Dove Linkhorn", a naive Texan drifting from his hometown to New Orleans. Algren noted, "The book asks why lost people sometimes develop into greater human beings than those who have never been lost in their whole lives. Why men who have suffered at the hands of other men are the natural believers in humanity, while those whose part has been

(Book). Lou Reed has been art-rockeer, iconoclast, contrary noise merchant, and junkie, yet he's always been fascinating. Only David Bowie, arguably, has re-invented himself as many times as Reed, while ensuring that each image was potent, edgy and dangerous. It's a tribute to Reed's standing that even punk rockers, with their scorched earth policy towards all pre-punk music, had a healthy respect and regard for him. Velvet Underground is one of the all-time greats; but in many people's eyes, Reed has produced his best work solo, after the demise of that band. This groundbreaking book analyzes and celebrates the willful intellect, fierce intelligence, and literary merits of Lou Reed's post-Velvet Underground music. Chris Roberts has written about music for fifteen years for The Guardian , Melody Maker , Sounds , and Uncut . He was also the editor of Idol Worship (Harper Collins), a collection of writings by pop stars (Bono, Thurston Moore, etc.) that has been hailed in some quarters as "The best book about rock 'n' roll ever."

Kitty Sugarman is a lot tougher than her name implies. That is, until a near-tragedy strikes and Kitty discovers she has abilities . . .thanks to a father she never knew was alive. He also happens to be a were-lion and leader of one of the most powerful Prides out West. WALK ON THE WILD SIDE When Kitty heads to Vegas to find out more about her father, it's his sexy, seductive second-in-command or baas of the Pride, Marcus Stewart, who commands her attention. Now that she has tempted Marcus's hunger for a mate, Kitty finds herself stuck in a vicious struggle for her father's fortune, while deadly unrest stirs within the pride. Kitty's rivals won't rest until she's gone for good, but Marcus will fight until his last breath to save her...even if it means going against the pride. The most famous long-distance hiking trail in North America, the 2,181-mile Appalachian Trail—the longest hiking-only footpath in the world—runs along the Appalachian mountain range from Georgia to Maine. Every year about 2,000 individuals attempt to “thru-hike” the entire trail, a feat equivalent to hiking Mount Everest sixteen times. In Walking on the Wild Side, sociologist Kristi M. Fondren traces the stories of forty-six men and women who, for their own personal reasons, set out to conquer America's most well known, and arguably most social, long-distance hiking trail. In this fascinating in-depth study, Fondren shows how, once out on the trail, this unique subculture of hikers lives mostly in isolation, with their own way of acting, talking, and thinking; their own vocabulary; their own activities and interests; and their own conception of what is significant in life. They tend to be self-disciplined, have an unwavering trust in complete strangers, embrace a life of poverty, and reject modern-day institutions. The volume illuminates the intense social intimacy and bonding that forms among long-distance hikers as they collectively construct a long-distance hiker identity. Fondren describes how long-distance hikers develop a trail persona, underscoring how important a sense of place can be to our identity, and to our sense of who we are. Indeed, the author adds a new dimension to our understanding of the nature of identity in general. Anyone who has hiked—or has ever dreamed of hiking—the Appalachian Trail will find this volume fascinating. Walking on the Wild Side captures a community for whom the trail is a sacred place, a place to which they have become attached, socially, emotionally, and spiritually.
