She's a book nerd and a cat whisperer. He's scarred and intimidating. Can the quirky bookstore owner tame the beast in the detective? ?Lily Young? I admitted the book boyfriends by the dozen in my Cat's Cradle bookstore had taken precedence over dating in real life. I wanted the real thing, an everlasting true love, a man holding me nightly, but the journey to finding that guy wasn't so easy. I'd kissed a few frogs along the way, and maybe my quirky sense of style chased a few away. One thing was for sure, the heroines in my romance novels made this falling in love thing seem easier than this. When Detective Jace showed up in my life unexpectedly, I wondered if we both had what it took to get over our pasts and into the future together. ?Jace Delfino? Women took one look at me, then looked away, leaving me wondering if I'd live alone the rest of my life. My beastly look was great for work, as a detective I could intimidate the most hardened criminals. But when Lily entered my life, all I wanted was for her to see how soft she made me feel inside. When the bad guys get too close to Lily and her bookstore, I worked overtime to protect her. It's my job, it's what I do - but would she let me protect her for life? This ?billionaire bad boy? story will surprise you with cute cats, a little humor, and steamy bits while delivering a Happy Ever After that satisfies. This standalone is also part of the interconnected Fated Loves series.

The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Queen of scandal? Olivia Benson, please raise your hand. I left my hometown, Calusa, the night Luke kissed me. Nineteen and going nowhere. Determined to make something of myself, I set my sights on somewhere new and exciting. Except, my car broke down two hours out of town. I couldn't return home when my friends wanted nothing to do with me. My new life started out just as crappy as my old one. I created a web of complications. I was in love with one Bennett brother, while pregnant with the other one's child. At least there were only two Bennetts. Thank God for small favors. But not only was he the wrong Bennett to fall for, he was also my best friend's boyfriend. I shouldn't have fallen for him, but I did. He's intense and hot as hell, but those are the reasons every other person in town is half in love with him. I saw the real Luke. His loyalty to a pompous brother. His sweet words for a girl who wasn't me. I got his genuine smiles, and his rare humor. No matter how hard we fought it, love set its claws in our hearts. I was destined to be scarred. Life forced me to leave Luke in the past. There was no room to wallow in self-pity when I struggled to survive day to day as a single mother. Now, six years later, I'm back in Calusa. Nothing is the same, and yet I have a whole new range of obstacles to overcome if Luke and I are going to work out this second time around. Secrets will be our downfall, but I won't run again. An irrepressible love will always find a way to claim its happily ever after.

Claire Randall is leading a double life. She has a husband in one century, and a lover in another... In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon—when she innocently touches a boulder in one of the ancient stone circles that dot the British Isles. Suddenly she is a Sassenach—an "outlander"—in a Scotland torn by war and raiding border clans in the year of our Lord...1743. Hurling back in time by forces she cannot understand, Claire's destiny is soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten her life...and shatter her heart. For here, James Fraser, a gallant young Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire...and between two vastly different men in two irreconcilable lives.

"After years of debate and inquiry, the key to a great marriage remained shrouded in mystery. Until now..."—Carol Dweck, author of *Mindset: The New Psychology of Success* Eli J. Finkel's insightful and ground-breaking investigation of marriage clearly shows that the best marriages today are better than the best marriages of earlier eras. Indeed, they are the best marriages the world has ever known. He presents his findings here for the first time in this lucid, inspiring guide to modern marital bliss. The All-or-Nothing Marriage reverse engineers fulfilling marriages—from the "traditional" to the utterly nontraditional—and shows how any marriage can be better. The primary function of marriage from 1620 to 1850 was food, shelter, and protection from violence; from 1850 to 1965, the purpose revolved around love and companionship. But today, a new kind of marriage has emerged, one oriented toward self-discovery, self-esteem, and personal growth. Finkel combines cutting-edge scientific research with practical advice; he considers paths to better communication and responsiveness; he offers guidance on
