On the island of Bellona, they worship the sun. Seventeen-year-old Veda understands that keeping the sun content ensures plentiful crops, peace and harmony, and a thriving economy. But as a member of the Basso class, she never reaps those benefits. Life as a Basso is one fraught with back-breaking work and imposing rules. Her close friendship with Nico is Veda's one saving grace in a cruel world where the division between her people and the ruling Dogio is as wide and winding as the canals that snake through their island. But when Veda's grandfather is chosen as the next sacrificial offering to keep the sun's favor, Veda is forced to see the injustice of her world. Turning away from the sun means she must join the night—and an underground revolution she's been taught to fear all her life.

A veteran NYPD officer describes how he moonlights as an investigator into the supernatural, offering a close-up look at some of his most shocking cases, including malevolent spirits, an incubus, demonic possession, bizarre rituals, and other terrifying incidents. Original.

Recently some 300 exorcists flocked to Poland for a week-long congress to examine the current fashion for vampirism the world-over and the apparent connection between this fascination and a surge in demonic possession. This comes as the world is experiencing an explosion of ancient occultism combined with wicked fascination for ghosts and all things paranormal. In the United States alone, there are now more than two hundred thousand registered witches and as many as 8 million unregistered practitioners of “the craft.” On college and high school campuses, vampires, werewolves, and other “creatures of the night” are esteemed as objects of desire and idolized by young men and women who view them as cult icons of envious mystical power. Church goers are enchanted by the darkness as well. An April 13, 2011 article “Mysticism Infecting Nazarene Beliefs” was preceded only a few days before by a Telegraph article describing how a “surge in Satanism” inside the church has sparked a “rise in demand for exorcists” within traditional religious settings.” Why is this happening now? God's Ghostbusters provides shocking answers in this collaborative work by Gary Bates, Chuck Missler, Gary Stearman, Thomas Horn, Nita Horn, Russ Dizdar, Donna Howell, Derek Gilbert, Sharon Gilbert, Michael Hoggard, Noah Hutchings, Terry James, John McTernan, Jeff Patty, Fred DeRuvo, and Douglas Woodward.

The danger to Xanth was so great that only a night mare could offer hope! The Nextwave of barbarian warriors was invading Xanth from the north, ravaging and destroying as they advanced. But Mare Imbrium had her own problems. Ever since she had gained the half soul, the night mare had begun to mishandle her job of delivering bad dreams. Now the night Stallion dismissed her, exiling her to the day world with a message for King Trent: Beware the Horseman! She had no idea what that meant. But that was the way with prophetic warnings—nobody could understand them until it was too late. Then she met the Horseman. And she discovered that one who would right a night mare was a master of a bit and spur, and not a man to surrender her. For the night mare, it all began to be a horrible nightmare!

November, 1940. Tom Tyler, Detective Inspector of the small Shropshire town of Whitchurch, is a troubled man. The preceding summer had been a dark one for Britain, and even darker for Tom's own family and personal life. So he jumps at the opportunity to help out in the nearby city of Birmingham, where an explosion in a munitions factory has killed or badly injured several of the young women who have taken on dangerous work in support of the war effort. At first, it seems more than likely the explosion was an accident, and Tom has only been called in because the forces are stretched thin. But as he talks to the employees of the factory, inner divisions -- between the owner and his employees, between unionists and workers who fear communist infiltration -- begin to appear. Put that together with an AWOL young soldier who unwittingly puts all those he loves at risk and a charming American documentary filmmaker who may be much more than he seems, and you have a page-turning novel that bears all the hallmarks of Maureen Jennings' extraordinary talent: a multi-faceted mystery, vivid characters, snappy dialogue, and a pitch-perfect sense of the era of the Blitz, when the English were pushed to their limits and responded with a courage and resilience that still inspires.

LAPD Detective Harry Bosch crosses paths with FBI profiler Terry McCaleb while investigating the murder of a Hollywood actress. Harry Bosch is up to his neck in a case that has transfixed all of celebrity-mad Los Angeles: a movie director is charged with murdering an actress during sex, and then staging her death to make it look like a suicide. Bosch is both the arresting officer and the star witness in a trial that has brought the Hollywood media pack out in full-throated frenzy. Meanwhile, Terry McCaleb is enjoying an idyllic retirement on Catalina Island when a visit from an old colleague brings his former world rushing back. It's a murder, the unreadable kind of murder he specialized in solving back in his FBI days. The investigation has stalled, and the sheriff's office is asking McCaleb to take a quick look at the murder book to see if he turns up something they've missed. McCaleb's first reading of the crime scene leads him to look for a methodical killer with a taste for rituals and revenge. As his quick look accelerates into a full-sprint investigation, the two crimes -- his murdered loner and Bosch's movie director -- begin to overlap strangely. With one unsettling revelation after another, they merge, becoming one impossible, terrifying case, involving almost inconceivable calculation. McCaleb believes he has unmasked the most frightening killer ever to cross his sights. But his investigation tangles with Bosch's lines, and the two men find themselves at odds in the most dangerous investigation of their lives.

Charlie Hall has never found a lock she couldn't pick, a book she couldn't steal, or a bad decision she wouldn't make. She's spent half her life working for gloamists, magicians who manipulate shadows to peer into locked rooms, strangle people in their beds, or worse. Gloamists guard their secrets greedily, creating an underground economy of grimoires. And to rob their fellow magicians, they need Charlie. Now, she's trying to distance herself from past mistakes, but going straight isn't easy. Bartending at a dive, she's still entirely too close to the corrupt underbelly of the Berkshires. Not to mention that her sister Posey is desperate for magic, and that her shadowless and possibly soulless boyfriend has been keeping secrets from her. When a terrible figure from her past returns, Charlie descends back into a maelstrom of murder and lies. Determined to survive, she's up against a cast of doppelg ä ngers, mercurial billionaires, gloamists, and the people she loves best in the world - all trying to steal a secret that will allow them control of the shadow world and more.
