"Clinical practice guidelines are systematically developed statements to assist practitioner and patient decisions about appropriate health care for specific clinical circumstances."(Institute of Medicine, 1990) Issued by third-party organizations, and not NCCIH, these guidelines define the role of specific diagnostic and treatment modalities in the diagnosis and management of patients.

~~Clinical Practice Guidelines | NCCIH~~

Using clinical guidelines within healthcare organisations. In the same way as topics for guideline development need to be prioritised,4 organisations need a process by which they can set and pursue their clinical priorities. These can reflect national priorities or can be set at a local level by health authorities, trusts, primary care groups, or individual general practices.
