special edition, however, the text has been carefully edited and rewritten to speak specifically to pianists. The musical examples have been rewritten, as well, in grand staff format and include suggested left-hand and two had voicing examples to be played with the CD tracks. The first play-a-long/demonstration CD includes special stereo separations, allowing the piano to be eliminated so that the student can play along with bassist Rufus Reid and drummer Jonathan Higgins. The second CD includes the same play-a-long tracks as the first CD, but at slower practice tempos. A complete package for the beginning jazz pianist! 106 pages, spiral bound for easy opening.

Designed for all rhythm section players and teachers. Listen to the CD as you would any jazz recording, as the melody is played in and out and the musicians solo, comp., and trade fours. Then, using your stereo balance control, eliminate your part and sit in! This is a tremendous tool for teachers; allowing isolation and careful study of each instrument's role with definitive chapters in the booklet that are written by the artists. Includes piano & guitar voicings, transcribed bass lines, outstanding drum information, and transcribed solos by Haerle, Petersen, and Coolman. Our first play-along where the drummer can be turned off and students can trade fours and eights with the pros (Volume 30B only). Rhythm Section: Dan Haerle (p); Todd Coolman (b); Jack Petersen (g); Ed Soph (d).

Here is a great way to expand your blues playing in every key! Slow tempos for all levels of ability. Try playing some of the tougher keys without looking at the music and see just how fast your ear takes over. You'll find yourself gaining confidence very quickly and that will greatly improve your soloing. Charlie Parker learned the blues in all 12 keys before he learned anything else. Transposed for all instruments. Each key contains a different blues melody and two compatible chord/scale progressions. Rhythm

Complete piano transcription book from Volume 1: How to Play Jazz and Improvise featuring Jamey Aebersold from the world's most popular improv method. Every note is written exactly as played by Jamey Aebersold with chord symbols, passing chords, pedal markings, and more, including a total of 40 minutes of efficient, musical piano accompaniment written for two hands. Why you should consider this and other Aebersold piano voicing transcription books: Ever listen to a great jazz pianist and wonder "what's he doing there?" Now you'll know! Here is an opportunity to see real jazz piano voicings and comping over real songs in real live musical settings. These historic books contain note-for-note transcriptions, exactly as recorded, of the exciting piano accompaniment from the world famous Aebersold play-along series. Not just for pianists, there are many ways for all musicians to use these wonderful musical tools: Pianists: First, listen closely to the pianist on the respective play-along recording (sold separately). Next, reading from the book, play along with him, imitating his style. Finally, turn him off (using the special stereo separation on all of our CDs) and play along by yourself with the bass and drums. With the techniques learned, you'll soon be improvising your own accompaniment! Non-Pianists: Horn players, arrangers and vocalists can use these books like dictionaries to look up favorite voicings they've heard on a particular play-along track. Written clearly for two hands, even the most novice pianist can play many sections of these books. Teachers / Educators: Give your combo piano students instant jazz voicings and harmonies over a variety of Standards and styles. As personal tools, they will enhance your own understanding of voicings and voice movement and provide you with better skills for accompanying your students.
