More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost."

This collection of essays and reflections starts from an analysis of the purposes of foreign language teaching and argues that this should include educational objectives which are ultimately similar to those of education for citizenship. It does so by a journey through reflections on what is possible and desirable in the classroom and how language teaching has a specific role in education systems which have long had, and often still have, the purpose of encouraging young people to identify with the nation-state. Foreign language education can break through this framework to introduce a critical internationalism. In a 'globalised' and 'internationalised' world, the importance of identification with people beyond the national borders is crucial. Combined with education for citizenship, foreign language education can offer an education for 'intercultural citizenship'.

Deciding when to work on a relationship and when to walk away is a skill that can prevent us wasting months and even years of our lives on partners that will never make us truly happy. Once we have learned to identify the deal breaker in a relationship we can empower ourselves to action, and then change and improve our lives. Whereas books like 'He's Just Not That Into You' explored relationship troubles in black and white, 'Deal Breakers' covers all the shades of grey that lie in between - all those areas where relationships can hit an impasse. Some deal breakers are easy to identify - one partner wants marriage, the other doesn't - yet many are more subtle and difficult to pinpoint. Dr Bethany Marshall is a relationships expert. She has identified specific male archetypes and the traits that frustrate and infuriate their partners. Here, for the first time in book form, is advice that can help any woman who is trying too hard to make her relationship work.

Freya searches for a missing Valkyrie in this second book of an exciting series that School Library Journal described as perfect for "those looking for Rick Riordan read-alikes." Valkyrie; Norse Goddess. Reaper of Souls. Defender of the Weak. But could she also start a war? In the world of Asgard, living among Odin, Thor, and Loki are the Valkyries of legend. Norse goddesses, reapers of souls from human battlefields—they have the power to cause death with just one touch. Freya is a Valkyrie—but she has not followed in the footsteps of the legends before her. She has been to the World of Man to befriend humans—and not to reap their souls. Now she must return to the human realm on a new quest to track down the runaway Valkyrie of legend. There she will discover a dark secret that leads her to the Land of the Frost Giants where she must take on new enemies. But this time she has friends to rely on, and lots more to gain.
