By Paul Stevens-Fulbrook. Swimming through treacle!

15 Learning Theories In Education (A Complete Summary)

The learning process is based on objectively observable changes in behavior. Behavior theorists define learning simply as the acquisition of a new behavior or change in behavior. The theory is that learning begins when a cue or stimulus from the environment is presented and the learner reacts to the stimulus with some type of response.

Learning theories Behaviorism, Cognitive and Constructivist

While the behavioral theories of learning suggested that all learning was the result of associations formed by conditioning, reinforcement, and punishment, Bandura's social learning theory proposed that learning can also occur simply by observing the actions of others. 1 □
