lose that last twenty pounds? How to push through that frustrating plateau? What to do when nothing else is working? Here, Smith has created a weight loss program that uses all he knows about strategic dieting in one plan--like putting all the best players on the field at once to create a can't lose combination. Shred combines a low GI diet, meal spacing, and meal replacements. Those who follow Shred will constantly be eating (every three and a half hours!), four meals or meal replacements (soups, smoothies, shakes) and 3 snacks a day, over a six week program. Shred also introduces Dr. Ian's concept of "Diet Confusion". Diet Confusion, like muscle confusion, tricks the body and revs up its performance. In the same way you need to vary your workout to see results, switch up your food intake to boost your metabolism.
