The pro-Anglosphere narrative is a familiar one — built on a foundation of British Imperial propaganda plus notions of American exceptionalism. It's been updated by historians such as Niall Ferguson and promoted by politicians such as Dan Hannan. It is of course contested — indeed detested — by many on the Left.

The Anglo-American Loan Agreement was a post-World War II loan made to the United Kingdom by the United States on 15 July 1946, enabling its battered economy to keep afloat. The loan was negotiated by British economist John Maynard Keynes and American diplomat William L. Clayton. Problems arose on the American side, with many in Congress reluctant, and with sharp differences between the treasury and state departments.

The immediate post-war Atlantic World has received insufficient attention in the literature, although P. J. Marshall's Remaking the British Atlantic: The United States and the British Empire after American Independence is a recent remedy to this lacuna. Eaton's book adds a new dimension and a longer perspective; it will be important in any future attempt to rethink the dynamics of the English-speaking Atlantic, but there are wider connections to be made to Canada and the Caribbean in ...
