# Get Free Verbal And Signed Languages

Signed languages express spatial relationships much more easily than spoken languages. If you wanted to communicate that “the cup is on the table,” speakers must use words to explain it. A signer could physically express that

concept by using  
one hand to sign  
'cup' and the other  
to sign 'table,' by  
placing the former  
on top of the latter.

Verbal vs. Non-  
Verbal  
Communication We  
communicate with  
much more than  
words: when we  
interact with  
someone, our body  
has a language of  
its own. The way

we sit, the gestures  
we make, the way  
we talk, how much  
eye contact we  
make - all of these  
are non-verbal  
ways of  
communicating  
that impact the  
messages our  
words are sending.

Verbal

communication is  
obviously an

important part of  
life as we use  
words to

communicate. But  
have you ever
